THE EVENING NEWS

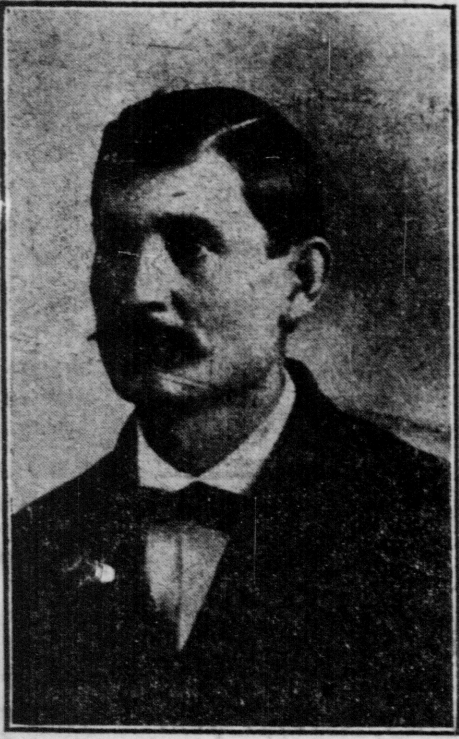

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

ADA IS AT PRESENT INVESTING several hundred thousand dollars in water works extension, sewerage construction, city hall erection, gas development, state normal college and what not.

By Request.

I have been requested to organize a fruit and truck grower association by the citizens of this vicinity. This is one of the greatest industries in the world today, and one that is observed by every one and one that every one that lives should be interested in. We all live from the products of the soil and we should be thankful that we have a soil under proper management and culture that can be made profitable.

I came to Ada one year ago the 6th of this month and have raised

M. LINGENFELTER.

and marketed a truck crop, and am pleased with the outcome in my experiments. I raised a full line of vegetables such as was adapted to our locality but failed to raise enough to supply our home demand. Now the more that we have on foot will give every man, woman and child employment. If the people will take hold and perfect this organization, we will have to raise bulk enough to be recognized by the commercial growers and commercial markets. This place should furnish daily shipments by express and car lots for at least six months out of the year, principally early crops. It will take practical experience to arrange this business so that it will be profitable. This will be an after consideration. I don't feel myself capable of being altogether a public instructor, but by my practical experience and knowledge, will put forth every effort to help to material-

ize this industry. I have talked to a great many and they speak very favorable in regard to this institution, and I feel as though I need the assistance of every one that is interested in this line of business. Would like to meet each and every horticulturist personally, and talk with them and get his views and ideas, in regard to practical experience in this locality. I have had twenty years experience practically, in the horticulture business, but am capable of gaining knowledge all the while. The day has been set July 20, in the afternoon to perfect this organization. We invite one and all far and near, to meet with us in the commercial club rooms. Respectfully,

M. LINGENFELTER.

NEW GROCERY BUSINESS

Mr. Mart Walsh Pioneer Merchant is Opening Up a Grocery Store in the Old Walsh Stand.

Pontotoc's old merchant of familiar name, Mr. Mart Walsh, is busy this week opening up his new stock of groceries. Mr. Walsh at present will handle only a general grocery business. His new business will be at the old Walsh stand.

Mr. Walsh's experience as a merchant and general popularity with the people will be appreciable assets to his new business.

Watch for Mr. Walsh's advertisement which will appear in succeeding issues of the Daily and Weekly News.

Pleased With the Tariff.

New York, July 13.—Both William E. Corey, president of the United States Steel Corporation, who arrived today from Europe, and Judge E. H. Gary, chairman of the corporation's board of directors, who sailed for France today, had a kind word to say for the results of the tariff revisers' efforts.

Corey said that in his belief "almost everybody is satisfied with the tariff and as it now stands," and predicted that the result of the bill's passage would be a "speedy acceleration of prosperity and a long era of good times."

LOOK TO TAFT TO SAVE PARTY.

Mayor Hay Says Northwestern Republicans Desire Him to Veto Payne-Aldrich Bill.

"Republicans of the Northwest look to the president to save the party of Roosevelt by vetoing the Payne-Aldrich bill," Mayor Hay said yesterday. He has just returned from a visit to Minneapolis and St. Paul. He saw and talked to many of the republican leaders, officers and citizens.

"I did not talk to the democrats about it, for I knew what they thought about it," the Mayor said. "But the republicans declared to be unreservedly that unless Taft vetoes the bill and makes the party adhere to its promise of revision downward, there will be defeat for the party if not disintegration. This was true in Iowa and in Minnesota, and I am told it is true all over the Central and Western country."

"So strong is the reaction against republicanism of the old form in this section that, though Minneapolis and St. Paul are normally republican cities, both cities have democratic mayors. Minnesota has a democratic governor. The United States senators are reactionaries."

The mayor talks interestingly of the water experiences when his train was stopped by a washout ahead, and when it would have backed out it was cut off by a washout behind, the two being within fifty feet of the ends of the train. The train was on a track that the water covered. Yet the mayor went to bed and to sleep though some of the travelers stayed up all night.

"As I stood on the back platform and watched the flood in the afternoon we were stopped," the Mayor said. "I saw what I thought to be the limb of a tree lodge on the track, washed up by the lapping waves. We were then backing slowly. I found it was a monster snake, ten or twelve feet long, or longer, and bigger than my leg. It rested on the rails with its head and tail up did not move. What we did to it was a plenty."

This was told at a commission meeting. The other members of the board looked at each other and smiled wearily.

Blind Brother Here.

Oscar Davenport, merchant of Tishomingo has returned from St. Louis where he underwent an operation on his eyes, of a nature which meant if unsuccessful total blindness forever and with only an estimated chance in one hundred to be successful.

The originator of such character of "last chance" operation is a celebrated English surgeon and only a few of such operations have ever been performed. Mr. Davenport lost. He is in Ada today on his way to Tishomingo and is a guest of his brother C. K. Davenport.

The prominence and popularity of this young and strong man in Johnson county and in his old home in northeast Texas suggests the sorrow which will be felt over his final great misfortune.

New Hotel for Ada.

A hundred room modern hotel structure is being proposed for Ada. Such a proposition was up some time ago, when it was shown, that the present hotel facilities of Ada were inadequate, but was not pressed at the time by the prospectors and proposed builders, for it was reported that Sam Harris was going to modernize and add 50 rooms to his hotel, but now it is thought that Mr. Harris was only conning.

Ada will have an auditorium with a seating capacity of 1,500 and a modern, commodious hotel. Then she will be in line for state meetings and conventions.

Jones Party Returned.

Mrs. J. C. Jones, Mr. Marshall Jones, Miss Hellen Jones, Little Miss Pauline Jones, Miss Duriel Cullins, B. H. Mason, Isadore Rosenfield and Miss Helen's mother and father, Mr. and Mrs. H. K. Stewart of Dallas, returned last night when the clouds were heaviest from Boggy where they had been fishing and recreating for several days.

The party reports a splendid time and a satisfactory catch.

The Joneses returned just in time to save their party being increased for Harris hotel proprietor, J. C. Jones, was becoming very lonesome.

The Texas Dep't. Store Annex

The fast growing mammoth Texas Department Store find that the 3 buildings, double decked, that they now occupy is inadequate to carry their immense stock and have each department complete within itself, and have taken a lease on the 150 foot Kotch building. The annex will carry a new and complete furniture stock including carpets, matting, linoleums, rugs, wall paper, queensware and etc. With this department will also be added a new, modern and "up to the times" undertaking parlor, where no effort or expense will be spared in making it complete; also a full line of picture moulding and an art department. We feel that in buying our goods as we do, in large quantities, that we are in position to beat the price and in our annex you will find exceptional bargains. We have recently bought three cars furniture, namely, a mixed car, a straight car, double cane and dining room chairs and a straight car iron beds, spring cots, steel couches and davenport. In buying this way one is bound to get the price regardless of what the "other fellow" says, and you save money by doing business with us. TEXAS DEPARTMENT STORE.

P. S.—"Hi Ki". Charlie Parrish (as he is familiarly known) will be in charge of this department in our annex. Charlie is a jolly, good natured fellow and tells us he will make good and save the trading public money as the prices we are selling goods at is far less than what he has seen or ever heard of. This is easy, though when you consider the quantities and quantities we have. Charlie is formerly of Roff and has a large acquaintance throughout this section of Oklahoma, he is considered ONE of the best furniture men and undertakers in Oklahoma, having been in the business for himself and making a success of it. Bryor to his business experience in Roff he was with the Street & Reed Furniture and Undertaking Co., of Oklahoma City, which within itself is an endorsement. Hoping to see you in our furniture, undertaking and queensware emporium, yours,

BUCK WALL, Manager.

TRAFFIC BEING RESUMED.

Missouri and Kansas Floods Promise Better Outlook.

Kansas City, July 13.—With the
Missouri and Kansas rivers station-
ary since last night and falls in
both streams during the night re-
ported from points above here, ser-
ious flood at Kansas City was look-
ed upon as improbable today. There
were no heavy rains last night and
Weather Observer Conner declares
the crest of the flood has been reach-
ed. Only continued rains can cause
another rise. At Kansas City the
Kansas River stands twenty-three
and nine-tenths feet and the Mis-
souri, twenty-seven feet. At Topeka
the Kansas river fell three feet last
night.

Eastern train service began to
show an improvement here today.
The Atchison, Topeka and Santa Fe
Railway opened its main line to Chi-
cago this morning. A break in the
track at Dean Lake, Mo., which has
caused all the trouble for that line
having been repaired and the Chi-
cago, Milwaukee & St. Paul railway,
which has annulled its nightly Chi-
cago train since Sunday, sent a
special to Chicago over its own line.
The Chicago & Alton continued to
detour its Chicago passenger trains
via the Missouri Pacific and Missou-
ri, Kansas & Texas to Higbee, and
thence on its main line to Chicago.
There was little delay in Western
traffic but train service South and
Southeast is still demoralized.

IMMUNITY CLAUSE INVOLVED.

Bar Commission Will Wait the Re- sult of Shawnee Trials.

Guthrie, Okla., July 13.—The dis-
barment proceedings against Virgil
R. Biggers, self confessed bribe-tak-
er and former county attorney of
Pottawatomie county, came up before
the supreme court today. Judge Mc-
Keown of Ada, a member of the state
bar association, who is pushing the
proceedings, filed a motion for a
judgment on the pleadings and was
given until August 15, to file a
supporting brief and Mr. Biggers
was given until the second Tuesday
in September to answer.

Outside of the local importance
of the case, attorneys interested are
of the opinion that the entire im-
munity clause of the constitution is
involved and that the decision of
the supreme court will define final-
ly the rights of the witness who in-
criminate himself in testifying
against others, to escape punish-
ment, penalty, or forfeiture.

It was definitely learned that the
disbarment proceedings against Dis-
trict Judge Maben, another of the
Pottawatomie county officials charg-
ed with receiving bribes from boot-
leggers and gamblers, would not be
filed until the remaining indictments
are disposed of. The state bar com-
mission wishes to conduct all dis-
barment proceedings in a perfectly
fair manner, and such instituted now
it is felt, would tell against Judge
Maben in the coming trials on the
criminal charges.

TO FIGHT TUBERCULOSIS.

State Health Department Preparing to Wage Vigorous Campaign Against White Plague.

Guthrie, Ok., July 14.—The State
Health Department is preparing to
wage a vigorous fight on consump-
tion, and beginning Aug. 1 will re-
quire that all cases of tuberculosis
be reported to the County Superintend-
ents of health.

"Before anything can be done to
better the condition of tubercular pa-
tients," a statement issued by State
Health Commissioner Mahr says: "It
is necessary that the State Board of
Health know how many cases of tu-
berculosis there are in the state;
whether the disease is on the increase
at a standstill or is decreasing. Blanks
furnished through the state health
department will call for the follow-
ing information: Patient's age, sex,
color, nativity, occupation and ad-
dress, how long since ailment be-
gan, has patient been employed with
consumptives, if so how long; has
a consumptive previously occupied
the residence, date of last case there,
number of members in patient's home,
is patient married or single."

Samples of sputum will be sent to
the State laboratories for examina-
tion. With this information given in
reports the health departments will
be able to trace the origin of cases
and work in that direction to stamp
out the disease.

FOR GROSS PRODUCTION TAX

Cases to Be Determined After Trial of One.

McAlester, Ok., July 14.—Last week
State Auditor Trapp placed in the
hands of the sheriff of this county
tax warrants against all the coal
companies here, aggregating \$50,000
for the 2 per cent gross production
tax of 1908. The companies began
seeking injunctions and today At-
torney General West and Judge C. B.
Stuart, the latter representing most
of the companies, agreed that one
case shall be filed before Judge
Brewer of the superior court and
made a test case to avoid a multipli-
city of suits, all to abide by this
decision.

STANDING GUARD

(Scene, the sunny veranda of a
golf club on one of the rare warm
spring days. On the top step sits
a pretty girl and on her outspread
skirt placidly sits a bulldog. He is
an extremely ugly, strong-jawed,
healthy looking specimen of his
kind, and he stares out over
the rolling links in superb indif-
ference. The girl suddenly looks at
him with a little frown.)

"Good Doggie!" frown.
She—"I wish Ted had remembered
to take this creature with him when
he was called to the telephone! I'm
not exactly afraid of him, but he
makes me nervous! He ought to be
in a jungle or something! I can't get
away and there comes Sam Ponson-
by!"

Ponsonby (who approaches with an
air of triumph)—"Oh, there you are!
I've been looking everywhere—
thought I saw you drive in. Won't
you go around with me?"

She (reluctantly)—"Why—er—that
is—thank you!" (Aside.) "Ted didn't
really ask me to play and maybe he
isn't coming back, and I can sit here
all day!" (She attempts to rise, but
the bulldog remains a dead weight on
her skirt.)

Ponsonby (snapping his fingers at
the dog)—"Here, now! Clear off!"
(The bulldog does not even look at
him.)

Ponsonby (with an ingratiating
whistle)—"Good doggie! Good dog-
gie! Come on, Sport!"

She (helplessly)—"His name is
Nebuchadnezzar, and he doesn't an-
swer to anything shorter. Won't you
please move, Nebuchadnezzar?"
(The dog gives her a swift, friendly
glance and resumes his meditation.)

Ponsonby (nervously)—"This is ab-
surd! Whose beast is it? I might
have known that no one but Ted
Bradford would be so inconsiderate of
a lady's feelings and—possible in-
clinations! Get out of here, Nebuch-
adnezzar!"

Bulldog (sotto voice)—"Gr-r-r-r!"

She—"Look out! He's dangerous!"
Ponsonby (walking around the dog
and the girl)—"They shouldn't let
Bradford bring a bad-tempered brute
here! It's against the rules, I'm sure.
It ought to be reported! Here we're
losing good time and—every-
thing! Can't you do something? He
seems to know you!"

She (with innocently wide eyes)—
"Why, you're not afraid of him, are
you, Mr. Ponsonby? I didn't think."
Ponsonby (goaded to daring, flicks
at the dog with his driver)—"Afraid!
I merely hesitated to arouse his
evil temper when he is so near you.
He might bite!"

Bulldog (turning on Ponsonby and
showing a row of long, white teeth)—
"Gr-r-r-r! Woof!"

She (shrinking)—"Oh, don't. You
see? Nebuchadnezzar, listen! I love
you, but please run away!"

Ponsonby—"Nice boy! Come, get a
bone! You try to pull away from him
while I distract him! Nice boy! Nice
bone! Nice!"

Bulldog (moving heavily over so
that he leans against the girl and re-
garding Ponsonby with extreme dis-
gust)—"Woof-woof! Gr-r-r-r!"

Ponsonby (very red in the face)—
"I don't know what you think about
it, but my opinion is that Bradford
ought to be brought up before the
committee for this! Why, you might
be eaten alive, or—"

She—"No, Nebuchadnezzar seems
friendly enough to me! But you're
losing your game! Do go on—and
find some one else to play with you!"

Ponsonby (heroically)—"And desert
you with this—this monster keeping
you a prisoner? You might have to
sit here forever! Where is Bradford,
anyhow?"

She (forlornly)—"He was called to
the telephone. Business, you know!"

Ponsonby—"He's probably forgot-
ten all about you and gone into the
city or something! He has no man-
ners! What any one can see in—
here, Nebuchad—"

Bulldog (smiling)—"Yp! Yp!
Gr-r-r! Woof!"

Ponsonby (leaning against a
post)—"Well, what on earth are you
going to do?"

She—"What on earth can I do? Do
it yourself! If you really wanted me
to go around with you you'd do some-
thing. Why, you're ten times as big
as Nebuchadnezzar!"

Ponsonby (aghast at her cruelty)—
"But—but—look at his teeth! I
haven't teeth like that! And you
know I want you to go around with
me! I always want you, but you're
always busy with some one else or—"

(A tall, good-looking young man
strolls out of the door at this jun-
cture. He is smiling as one whose
forethought has worked out a situa-
tion in the way he had hoped. At his
whistle the bulldog springs up and
rushes to him.)

Bradford—"Hello, Ponsonby! I'm
sorry I was so long, Sue. Come on,
now for our round!"

Ponsonby (hands in his pocket, feet
outspread on top step, watching the
pretty girl and his rival walking
away, the bulldog trotting behind)—
"If I thought Bradford did that on
purpose I'd—be—heavens! I wish
had Nebuchadnezzar's teeth!"

No Chloroform for Him.

Baltimore, July 13.—Dr. William
Osler was 60 years old yesterday. He
is hale and hearty, but he is not
in this city. The eminent physician,
who held that man's best usefulness
was passed at 40 and that he ought
to be chloroformed at 60 sailed re-
cently for England after a vacation
trip in America.

T. R. Ball, registrar of John Hop-
kins university said there was noth-
ing in the appearance or manner of
Dr. Osler that indicated he had
any intention of quitting the world.

Rescue Home Moved
Guthrie, Ok., July 14.—It has been deemed advisable by those associated in the state rescue work to move the rescue home, located in Guthrie, and the one in Enid to a more convenient part of the state. Eighty acres of land has been purchased for this purpose on the new El Reno interurban street car line just two miles south of Belle Isle addition of Oklahoma City. The products of the farm will doubtlessly go toward the support of the works and an industrial plant will be constructed. The object in moving these homes is to get to a city nearer to the central part of the state so that work in securing girls will not be so inconvenient.

Adjustment Board Named.
Guthrie, Ok., July 14.—The state board of land commissioners today appointed the adjusting board for Lincoln county—W. H. Biddle, democrat, and J. J. Irwin, republican, both of Wellston. Seven agricultural journals were selected in which the state will advertise the sale of the school lands and the list of state and out-of-state newspapers will be selected by the secretary and superintendent of sales.

Prof. Hendricks at Durant.
Durant, Ok., July 14.—Prof. H. G. Hendricks, who is in charge of Bloomfield Seminary, one of the federal schools being conducted for the Chickasaw children who was in Durant, reported a very successful year and that the term closed with twenty-eight pupils in attendance.

PRINTERS HARD WORKERS.
Statistics of Labor Commissioner as to Publishing Plants.

Guthrie, Ok., July 14.—Printing and publishing houses in Oklahoma work more days than any other institution, excepting hotels and electrical companies, according to statistics for 1908 in possession of the State Labor commissioner. The year's average was 310 working days and after eliminating fifty-two Sundays, the craft lost on an average but three other days during the twelve months.

The department has reports from 442 out of the approximate 550 institutions in the state, showing their annual receipts equaled \$2,661,160, out of which they paid for material \$796,038. The capital invested was \$1,858,833, invested in grounds \$131,070, buildings \$203,840, machinery, \$1,378,873, paid in rent and taxes \$116,386 and paid in wages \$1,197,877.

There were employed 17,015 males and 299 females, and of these 1,234 males, 353 females and 48 children under 16 years of age were in the mechanical departments. The average wage of 44 was over \$25 a week, 118 between \$20 and \$25 per week, 287 between \$15 and \$20, 212 between \$12 and 15 and 184 between \$10 and 12 per week. The average paid females was between \$6 and \$12 per week.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, Ohio.

A little girl in New York has set an example of civic generosity and duty which has been deemed important enough to acknowledge formally. The remark of Mr. Bryce in his "American Commonwealth," that the founders of the constitution were men who believed firmly in original sin and left no door open they could shut, is very applicable and deserves special study just now. A bit of this sound, if old-time, wisdom would help immeasurably in our civic affairs, where men, apparently, are taken on child-like trust, and the door of every public trust fund is open.

The issue of Thursday, March 25, of the Evening Bulletin of Honolulu, territory of Hawaii, is acceptable evidence that American energy follows the flag. Hawaii is a land of promise for the agriculturist and horticulturist, and she is to come to her own through the influence of American enterprise in every field of endeavor.

DELVING INTO PSYCHOLOGY.

Michigan Man and His Twelve Disciples Are Now Completing "Silent Manuscripts."

Whitehall, Mich.—Living with his 12 disciples in the "Valley of the Pines," near this village, and delving deep into the mysteries of psychology, a study to which his entire life has been devoted, J. A. Sadony is now completing the last of his 12 "silent manuscripts," which are carefully stored in a heavy iron safe, securely locked away in a small cement building near the mouth of White lake.

His 12 disciples, selected by Sadony himself, during trips through every

J. A. Sadony.

country on the globe, number almost as many different nationalities, each being chosen for his peculiar fitness in the particular branch of the cult which the philosopher desired that he follow. The latest member has now been in the colony 12 years, and the preparation of 12 manuscripts by these men is at once to be started. These books, together with the 12 that Sadony himself has nearly finished, will outline with the greatest minuteness the belief which these men have followed for so many years.

Sadony is a believer in the "simple life." Nothing distracts him from his study and from early morning until late at night all 13 of the men work hard at their books and indulge in prolonged debates with each other. All questions, after being argued out at length, are referred to the entire 13, who decide only after careful consideration just what lines the creed will follow.

Within the space of about a year Sadony expects that the work of himself and his disciples will be completed and put into logical shape. It will not, however, be presented to the public. Sadony sees to it that all of the writings of the cult are carefully protected from the curious and by keeping them under double lock and key, within a cement house, the walls of which are nearly three feet thick, makes it certain that no prying eye shall see any of the cult's teachings.

When the 24 manuscripts are completed, 12 years will be spent in going over their teachings and small revisions will be made from time to time. At the close of the period the cult will be opened to the criticism of the world. It is preparing against minor omissions and perfecting the manuscripts against any of the critics who are at once expected to attack it, that Sadony is giving so much time to. And when he completes the work he expects that the truths revealed will be so startling as to discredit the work of the critic.

WOMEN SUFFER NEEDLESSLY

Many Mysterious Aches and Pains Are Easily Cured.

Backache, pain through the hips, dizzy spells, headaches, nervousness, bloating, etc., are troubles that commonly come from sick kidneys. Don't mistake the cause—Doan's Kidney Pills have cured thousands of women afflicted in this way—by curing the kidneys. Mrs. C. R. Foreman, 113 S. Eighth St., Canon City, Colo., says: "Three years I suffered with rheumatism, dropsy and kidney complaint, and became utterly helpless. I found relief after using two or three boxes of Doan's Kidney Pills and kept on until cured. Doan's Kidney Pills have been a blessing to me."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

The Novel Type.

In a late magazine story a perfectly lovely girl is described as follows: "She was very small and dark, and very active, with hair like the color of eight o'clock—daylight and darkness and lamplight all snared up together, and lips like all crude scarlet, and eyes as absurdly big and round as a child's good-by kiss."

How do you like it? Would a girl who answered that description be worth shuvs in everyday experiences?—Acheson Globe.

Absent All Around.

The absent minded professor returned home one evening, and, after ringing his front doorbell for some time to no effect, heard the maid's voice from the second story window: "The professor is not in."

Lewis' Single Binder costs the dealer some more than other 5c cigars, but the higher price enables this factory to use extra quality tobacco. There are many imitations; don't be fooled. There is no substitute! Tell the dealer you want a Lewis "Single Binder."

Germany's Gift Against Plague.

Germany has 82 sanatoria for tuberculosis, which hold over 20,000 poor consumptives; the cost of each sanatorium is about \$100,000. Through organized, effective methods, Germany has reduced the death rate from consumption by one-half throughout the nation. In the German army tuberculosis has diminished 42 per cent. during the past 20 years (from 33 per cent. per 1,000 to 19 per cent. per 1,000 of the effective force).

Paxtine

TOILET ANTISEPTIC

— NOTHING LIKE IT FOR —

THE TEETH Paxtine excels any dentifrice removing tartar from the teeth, besides destroying all germs of decay and disease which ordinary tooth preparations cannot do.

THE MOUTH Paxtine used as a mouth-wash disinfects the mouth and throat, purifies the breath, and kills the germs which collect in the mouth, causing sore throat, bad teeth, bad breath, grippe, and much sickness.

THE EYES when inflamed, tired, ache and burn, may be instantly relieved and strengthened by Paxtine.

CATARH Paxtine will destroy the germs that cause catarrh, heal the inflammation and stop the discharge. It is a sure remedy for uterine catarrh.

Paxtine is a harmless yet powerful germicide, disinfectant and deodorizer. Used in bathing it destroys odors and leaves the body antiseptically clean.
